

In cooperating in our survey of Perfins on the 1902-03 issue, J. R. Craddock (#1430) of El Cerrito, Calif., asks whether it is unusual to have Perfins on issues prior to the 1902-03 definitives. He mentions that he has an ACB/LD pattern on a 50-cent Columbian. The editor is sure that some of our long-time members are much better qualified than he is to comment on this question, and their response is invited.

As a collector of exposition material, the editor would be particularly interested in learning whether Perfins are known on any values of the Trans-Mississippi, Pan-American or Louisiana Purchase issues.
